

# Death Penalty for ex-Kaiser and Other Hun Malefactors Guilty of War Crimes Expected

## HUN LEADERS' TRIALS ASSURED

Holland to Give up Wilhelm at Demand of Belgium.

Hindenburg, Ludendorff, Tirpitz, Crown Prince Named.

American Objections Overcome by Allied Argument.

BY HENRY WALES.

**BY CABLE—EXCLUSIVE DISPATCH]** PARIS, April 15.—The Kaiser and the other German malefactors will be tried before a tribunal formulated along the lines of the League of Nations for violating a treaty and rupturing the world's morality. I am in position to state that the commission investigating the responsibility for the war and the responsibility for criminal acts during the war has compiled a report which has been signed by all except the ex-Kaiser.

This report brands the ex-Kaiser, ex-Crown Prince Hindenburg, Ludendorff and Von Tirpitz, as well as the German officers who directed the submarine and air bombing campaigns and members of Germans in charge of prison concentration camps during the war.

The extradition of the ex-Kaiser will be demanded through the League of Nations, and as the Netherlands will be a member of the league it is not expected there will be any difficulty in obtaining the ex-Kaiser personally before the world court.

It is believed the death penalty or banishment will surely be inflicted upon the German leaders responsible for the war and its crimes committed during the war.

**REVERSAL OF FORM.**

This decision to try the ex-Kaiser marks a reversal of form on the part of the Allies which took place during the last few days. Russia, Belgium's demand and it is understood that certain assurances have been obtained that Holland will deliver the Holsteinian Inter-

national Jurist feels such trials will be illegal and certain quarters believe they will never take place but merely be announced as the hope of the English and French peoples.

The trial of those guilty of crime during the war also raised another acute question between the Allies and the Jugo-Slavs. Russia will demand that certain officials formerly attached to the Austrian army shall be included with the German officials and that the idea of extradition to try the Kaiser through fear of making him a martyr to the German people—a sort of second Joan of Arc. Since the trial of the Jugo-Slavs has been cut to \$5,000,000,000 as the only sum which will be mentioned definitely—the balance being left for compensation to fix from the date after the peace was restored—it was felt by Lloyd George and Clemenceau that the people would demand some part of their punishment be held if the trial could not be held to fix the entire cost of the war than the other pledge to try Wilhem must be made good.

**AMERICAN OPPOSE.**

The American commission did not favor extradition or try the ex-Kaiser under the responsibility for the war owing to the fact that any ruling sovereign always had the right to make war in the past and they could not stand upon the ex-Kaiser as the first exception with fairness.

The Americans also did not favor trying the individual Germans or members of the war ministry to the war owing to the fact that only a small percentage of those guilty of war crimes could be apprehended and to prove the law and the facts of the case would be unique. However, the French and British finally won over the American commission to their view-point by promising to review the entire list of German malefactors obtained during the war from spies, repatriated French and Belgians and prisoners of war.

The Americans were so anxious to get the ex-Kaiser that they merely wrote into some lasting document like the peace treaty a clause denouncing the Kaiser and the German military leaders for the war and the world into which they indirectly holding them responsible for the millions killed and maimed.

**ALLIES HELD OUT.**

However, Lloyd George and Clemenceau held out for the trial of the individual engeral criminals and used their demands as a trading point with the Americans upon separation claims as the American financial experts cut out the amount of annual reasonable sum which the Germans could be expected to be able to pay.

Finally, Wilson agreed his forces to be ready as drafted above. Belgium will be the instrument through which the Kaiser will be called before his judges, it being expected that King Albert will be upon the orders of the Nations to try the Kaiser for crimes committed under his orders while the Hun armies occupied the small kingdom.

The American international legal experts disagree as to whether the work of inquiry.

## GERMANY WAITS PEACE, VOLCANIC.

By George Bonwick.

**BY CABLE—EXCLUSIVE DISPATCH]**

BERLIN, April 14 (Delayed).—Hope that the announcement of the peace terms would not be long delayed has been running high, but today it is gone again. Whether truly or no, the people are told by newspaper messages received here that something like another month of waiting may have to be faced. If that so, it will be well not to disguise the probability of that month being one of serious potentialities. The nerves and endurance of the people have been stretched to a previous extent.

Although the government would appear to be weathering the storm of the moment, it is certainly only by the skin of its teeth.

The resignation of Dr. Scheider, the German Minister of Finance, shows the existence of a certain weakness within the Cabinet.

In addition, a prolonged delay un-

It was as though a magician had tapped the edge of the soup bowl with a magic wand and said, "poof!" change! Soup was gone!

I'll be surprised if there is not some such roundabout a bit of old-fashioned diplomatic artistry at work.

**EPECT WILD RUMORS.**

"We may expect almost as a matter of course two or three days of sensational rumors and statements of German defiance, and a renewal of the war with Russia.

These sensations will mean nothing, whatever. They will not even distract the public peace of mind, if the public peace of mind is disturbed, that Germany has taken the trouble to do so.

Although the contributions payable by Germany are characterized as reparations, a very considerable amount of it is to be paid to the Allies.

The transport mobile, due April 21, has about the first 1,000 men, headquarters and supply companies, medical and ordnance detachments, Batteries A to F, inclusive, of the One Hundred and Thirty-ninth Infantry, Second and Third Field Artillery regiments, the One Hundred and Forty-fourth and One Hundred and Forty-fifth Machine Gun battalions of the Fortieth Division, also have sailed.

**RUSSIA TO SHARE.**

A share of the reparations fund will according to the present understanding be given to Russia for damage to invaded Russian territory, but probably will be turned over to Great Britain and France to apply on advances made to the old Russian government during the war.

Although the contributions payable by Germany are characterized as reparations, a very considerable amount of it is to be paid to the Allies.

**THE TRANSPORT MOBILE.**

"There is an equally absurd fear that Germany will refuse to sign without resuming hostilities, and thus attempt to embarrass the world by leaving people in the air, that she will not be able to maintain her morale, that she will not be able to keep her men from eating.

And I must not forget there are many who have not even \$60 premiums to pay, and whose families are in the same boat.

She is ready to make a good start in resuming economic and industrial activities despite all her shortcomings, but the soldiers are ready and their people are prepared to work with which they cannot have until we lift or modify the blockade after signing the peace.

**MAY EXTEND TIME LIMIT.**

"Of course, a prolongation again delay some time, but it probably can be fixed for signing. Germany will be given at least a fortnight before a month. Furthermore, there hardly need be modifications in the treaty, although it is a cardinal point. These changes may reasonably be expected because we ourselves now drawing the treaty are the ones who will be most interested in the details of the economic conditions prevailing in Germany to be able to hit on the best method at the first attempt. So we may first expect a simple sign, then the modifications, and finally the signatures."

"She knows she is to get peace terms much more moderate than she expected when she surrendered than most of us expected when she signed the armistice.

**OTHERS COME LATER.**

"There is some confusion in the public mind, due to the fact that only German delegates are summoned to Versailles, whereas for the last six weeks there has been an assurance that the preliminary peace treaty now in the making covers the case of Germany and all her allies.

"It does not follow that the other major masters concerning Bulgaria, Austria, Hungary and possibly Turkey, are involved. Germany in signing the treaty will have to commit herself on these points of view.

She will then call the Allies. Her allies themselves will have the same treaty presented for their signatures later on.

"There is a long list of subjects which have been just hinted at in the last five months, but which cannot possibly be completed before May 1. For example, there are the business and Japanese controversies, the Greek enclaves and the division of responsibility for the Asia Minor countries.

"Forty-one one-hundredths of 1 per cent. were going to re-enter on account of inability to secure employment.

"Seventy-one one-hundredths of 1 per cent. could not obtain their former positions.

"One-hundred-and-one-hundredths of 1 per cent. were paddling.

"Twenty-three and four-tenths per cent. were going home.

"Two and one-half one-hundredths per cent. were not satisfied with them.

"Two of the men interviewed were soldiers who were advising American men that they could not obtain their work to be found in Canada.

It takes about ten days to completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself. In fact, a bottle of Cough Remedy in the house is a mighty good investment during the winter and spring months.—[Advertisement.]

### Opposition to Peace Treaty Expected at First.

**BY CHARLES A. SELDEN.**

**BY CABLE—EXCLUSIVE DISPATCH]**

PARIS, April 15.—Today's estimates as to what Germany will do with the peace treaty to be presented her delegates at Versailles April 25 run all the way from the foolish extreme that the delegates will sign once to the other extreme, equally foolish, that they will never sign the document now nearing completion by the Paris conference.

Within these two suggestions a comfortable middle ground is the part of all the nations represented in Paris that Germany will require only from a fortnight to a month, and that the war will be over by the end of possibly by the middle of May.

"We expect it will be finished within three weeks from the arrival of the Germans at Versailles, April 25," said a member of the French Foreign Office to me this morning. "I'll not be surprised if at first the delegates may say they cannot sign, and certain of the Germans will say they must not sign. In

any case, the French will be the first to break the deadlock.

ARMY CASUALTIES SHOW AN INCREASE.

**BY A. P. NIGHT WIRE.**

WASHINGTON, April 15.—Revised army casualties records made public today show 274,560 major casualties, an increase of 17,755 over the total announced a week ago. One of the striking features of the record is reduction of 237 in the number of missing, brought about largely by the identification of dead and the return of prisoners. The table follows:

Killed in action (including 381 at sea), 22,354.

Died of wounds received in action, 12,435.

Died of disease, 22,656.

Died from accident and other causes, 4248.

Wounded in action (over 85 per cent returned), 137,574.

Missing in action (not including prisoners released and returned), 4562.

Total, 274,560.

Germany has been asked to name a delegate to sit on the economic commission.

The problem of reparation settle-

Smaller powers are still to be held relative to their share of the indemnity, particularly Belgium, the claims of which are anticipated to first consideration under various pre-war agreements.

**CERVANTES, ON TRIAL, TELLS OF MILITARY EXPEDITION AGAINST MEXICO.**

(BY A. F. NIGHT WIRE)

EL PASO (Tex.) April 15.—Col. Federico Cervantes, Chief of Staff to Gen. Felipe Angeles, Minister of Communications in the Cabinet of Provisional President Lázaro Cárdenas, officer instructor in the French Flying Corps, and bearer of the French cross of the Legion of Honor, told the history of his revolutionary experiences in Mexico late today in Federal court as a witness in the trial of himself and eleven others charged with setting on foot a military expedition to Mexico. They were arrested March 18 near Socorro, Tex., on the Rio Grande.

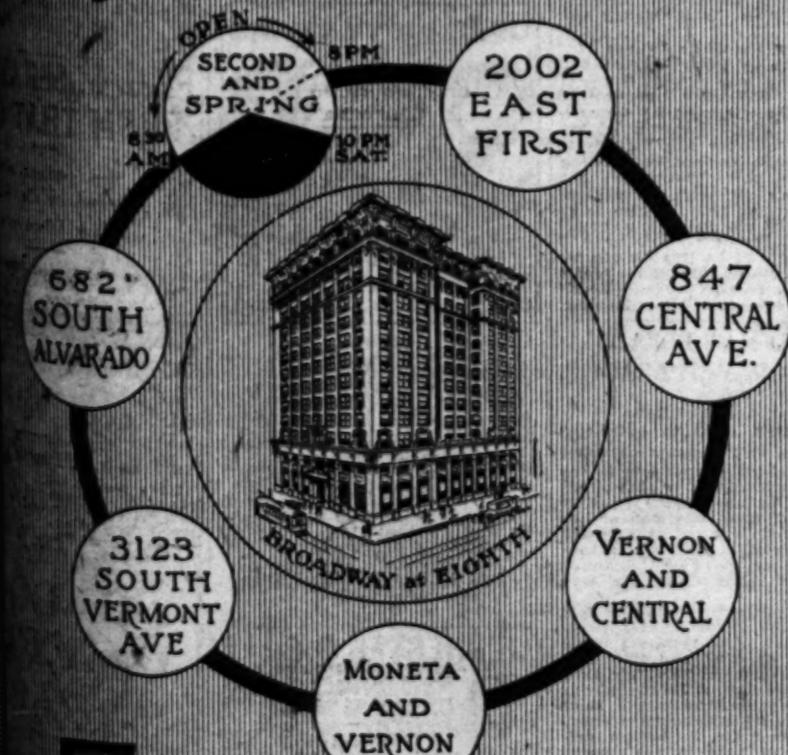

Cervantes said he was a graduate of Chapultepec Military Academy with honors, was sent by President Madero to study aerodynamics in the French army, acted as an officer-instructor in the French Flying Corps, for which service he was decorated. After President Madero had been ousted, he had acted as Chief of Staff and Minister in the provisional President's Cabinet under the Aguirreantes convention of which he was a delegate from the army of Sonora.

Col. Cervantes stated he owned a home valued at \$30,000 pesos in Mexicali City, an interest in an estate valued at \$10,000 pesos, in Mexico, and other property, all of which he said, had been confiscated by Gen. Pablo Gonzales. He added that he had been driving a jitney bus in El Paso for three years prior to his arrest. He reviewed the history of the Carranza-Villa break and denied he had ever served with Villa after that date.

Preceding Cervantes's testimony, a letter, alleged to have been taken from him when he was arrested and to have been written by Mrs. Felipe Angeles, Gen. Angeles' wife, in the field, was introduced. It mentioned a sum of \$350 sent her by José María Mayorena, former Governor of Sonora, to buy Angeles a horse. Mayorena is living in Los Angeles.

**WASHINGTON.** April 15.—Labor conditions in Sonora, Mex., unsatisfactory for the last six years, have become much worse since the charge of more than 4000 men by several copper companies and the steady growth of unrest, official advice today said. Several large silver mines have recently reopened, after being closed for several years. A notable increase in the number of Americans, mining men and bankers, entering Sonora was reported.

PASADENA, April 15.—Pasadena's quota in the new Victory Loan will be \$2,397,000, which includes besides the city of Pasadena the communities of South Pasadena and Lamanda Park. This was announced today by J. B. Coulston, chairman of the Victory Loan for Los Angeles county outside of the city of Los Angeles, and J. P. Howe, chairman of the War Savings Societies. The campaign for the Victory Loan will be carried on here by the War Savings Societies, which have organizations in every precinct in Pasadena, South Pasadena, and Lamanda Park. Pasadena is one of the first cities to exceed its quota in the last Liberty Loan campaign. Pasadena won the honor of being the first city in the new federal steamer being built for the Federal government.

WILL BURN MORTGAGE

The mortgage on the Masonic Temple in Pasadena will be formally paid off at an assembly of all the Masonic lodges in Pasadena next Monday night at the temple. William H. Vedder, president of the Masonic Temple Association, will apply the money to the payment of the \$18,000 mortgage on their building, situated on North Fair Oaks avenue, between Olive and Hill streets, and before Monday night the final note of \$2800 will be paid off. Now there are only two members of the original directors of the Temple association left, both of whom are Vedder. The other is Sherman Washburn. Other members of the present directors are H. I. Stuart, Henry Danier, George Daniel and Orrin Hayes.

**A BARGAIN  
GROVE**

Can you imagine all of this—new orchards, vine-ramen, grapevines, barn with cement stave walls, tank house with cement dairy room, scrupulously clean, assortment of fruit trees, roses and shrubs, over \$5000 worth of oranges still on the trees and six shares of water stock—all for \$1000.

Frequent caravans running a money-making dairy—an ideal condition for an orange ranch. Owner, living to the East, does not realize the value he is giving in instructing the sale at this price. If you want a ranch that presents opportunity for a large gain, buy this place at once, corner Alabama and Eugenia avenues, Redlands. For information, call at 514 Marsh-Brown Ridge, Los Angeles. SAN FERNANDO, April 15.—The packing-house belonging to the Jenkins Association, near the San Fernando mission, is being enlarged and will exceed in size, any packing-house in Southern California, it is said.

Rosel secured the services of attorney. They argued that as long as the company continued to do business, he would be able to drive away the superintendent and his men stopped out and made no trouble, he was placed in jail and later brought before Justice Claude Durrell, one of the most eminent, canons on record here. By a loophole in the law, a thief was freed after there had been eye-witnesses to the theft, and an effort will now be made to secure his punishment by an entirely new charge. The man accused is Ross, who must now answer to a charge of butchering without a license.

Some time ago range riders for the Chino Land and Water Company discovered evidence of cattle stealing. They traced the thief. One day they found a steer roped and tied to a tree far out from the ranch house. They were certain the thief had hidden the steer would return for it. The ranch superintendent and some of his men was in busily not aware what was in busily not the afternoon. Ross and a boy appeared in an automobile. Ross, it is said, proceeded to butcher the steer and pack it up in boxes. When he got home, he had finished his work and was about to drive away the superintendent and his men stopped out and made no trouble, he was placed in jail and later brought before Justice Claude Durrell, one of the most eminent, canons on record here. Organizational co-operation and specialization were the three things that President Van Zwalenburg said he had in mind when he organized the American Fruit Distributors.

The best way to carry them out is to adopt better business methods, better organization, more consultations, more community practice, hospital standardization, high medical attainments and more publicity.

Upwards of 500 delegates have assembled in Santa Barbara to participate in the State Medical Society's third annual meeting. Following the calling to order of the convention this morning, Prof. A. H. Adrian spoke the address of welcome and Rev. Charles E. Dowd gave the benediction.

Last night, formal dedicatory exercises were held for the new Poter Laboratory and Clinic, which was recently added to the Cotton Exchange building.

Among the proposed innovations are a live stock auction, State society competition, a general agricultural display for the community exhibit plan, less cheap amusements and more educational efforts and fewer wheels of fortune.

There was enough said by the officers of the Riverside County Goat Association to indicate a new class of live stock, which came to the front in such remarkable fashion last year, will form a highly important feature of the fair.

LOS ANGELES HARBOR, April 15.—The first attempt to can frozen fish from Mexican waters is to be made this season by the Van Camp Sea Food Company. The floating cannery boat, No. 1, now on the way to Mexican waters, has a large cold storage barge ever built at this port. It has an ice-making machine with a capacity of twelve tons.

A fleet of eleven fishing boats will work the cannery and the surplus fish will be put in cold storage and rushed to the cannery here by fast tender boats. This is the first season the fleet has been sent out.

The speaker referred to the fact that in the United States today there are 142 states, resulting in an overlapping of 142 state, many of which are weak, struggling organizations.

He suggested that a league of the state federations, which represent the health needs of labor and capital.

# Calloous—Or Careless—Which?

**After coming through for every war-drive for four years are you going to Fall Down on France?**

**YOU**—who have not responded to the call made by this committee in behalf of the old men and old women and little children returning to the ashes of their homes in Northeastern France.

**YOU**—Are you among those who shrugged their shoulders while France held the line for civilization for four years and was bled white?

**YOU**—who are privileged to live in a beautiful country still unscathed by the wrath of the Hun. **YOU**—some of you who espoused the too-proud-to-fight policy while the women of France were raped by squads of Prussian soldiers. **YOU**—who knew about it and did nothing for nearly four years while the men of France battled the barbarian. **YOU**—Are you too proud to give as well as too proud to fight? Listen—

If we should assume the task of placing stone upon stone again wherever the hands of the Hun have hurled them down; if we were to make every

acre of French soil a rejuvenated garden more wondrously productive than before; if we should rebuild and rehabilitate and revitalize these people; if we should give them the price in their hands with which to wipe out the evidences of Germany's colossal pillage—we could not begin to pay even Humanity's interest rates upon that obligation of honor we laid upon ourselves when France fought for us and we gave no sign; when France held the Frontier of Freedom and we looked on and did not—could not—would not understand.

But this committee is not asking you to rebuild France. It is not attempting to repair physical damage to the country. All that is being asked at this time is that a little money be sent to Miss Anne Morgan, who is directing the work in the Department of the Aisne, to be used to buy household utensils, garden seeds and tools, a cow here and there for several families, a pig, chickens and rabbits. The country is utterly denuded and devastated. We have told you about it repeatedly.

**DO YOU DARE HOLD OUT MONEY ON FRANCE WHEN SHE IS DOWN! SHAME! LOS ANGELES! SHAME!**

There are two kinds of real friends of France—real friends in the city of Los Angeles. There is the man or woman with money—wealthy people—people with plenty. Are you one of them? If so, make your check today. Make it out big. It is a big job this committee is doing. It's no favor to us. You are not placing US under obligation. You are paying a part of your own debt to France. Don't forget that.

**THEN THERE IS THE WAGE-EARNER.** The American man and woman living in security in Los Angeles owes a debt to France. Are you one of these? If so, put an amount equivalent to twenty-five cents for every member of your family in an envelope and send it to us at once. **THE CRUMPLED DOLLAR BILL THRUST INTO AN ENVELOPE HAS PUT MORE THAN ONE CAMPAIGN OVER THE TOP.** Come through—for France!

France is a Lady! France is not asking for this help. She has never asked for it. American men and women have taken hold of the work and the French Government has gratefully assigned them to the relief work in the Department of the Aisne. Myron T. Herrick, the man who represented

the United States in France when the war broke out, is president of this committee. Big men and women all over the country are working and speaking for this work. General Frederick S. Strong, commander of the Fortieth Division, is making speeches in Los Angeles and throughout Southern California. Returned Los Angeles soldiers are urging you to act at once for France. Harry A. Williams, war correspondent of the Los Angeles Times, is speaking in behalf of these repatriated peoples of the great, immeasurably mournful battle areas of France. He has seen it all and he knows! Men who come back to us from that country seem to smile rarely. They speak softly and are silent a great deal.

**France Is a Lady!** She waited during the past three weeks while the Salvation Army drive took up the attention of the people. Now she must get out of the way of the Victory Loan within four days. Will you help to close this campaign this week?

Mail your money or bring it in yourself to: Judge Hugh Neal Wells, Campaign Director, Alexandria Hotel Building, 503 South Spring Street, Los Angeles, California. Telephone Pico 92.

**Fill This Out and Attach It to Your Check.**

I AM a friend of France, and I am willing to prove it with my check book. Enclosed with this coupon you will find my contribution to the work being conducted by Miss Anne Morgan for The American Committee for Devastated France in the Department of the Aisne.

I AM a wage-earner. I have many obligations upon me. I have given as much as I could to other drives. **Mrs. Banta Tells What Tanlac Has Done for Her.**

**Says She Had Given Up Hope of Regaining Health.**

**Can Now Eat Anything Without Trouble, She Asserts.**

"Tanlac has done so much for me that I certainly can testify to its value as a medicine," said Mrs. C. W. Banta, who lives at No. 2705 Mendon Place, Los Angeles, a Tanlac representative for about a year ago. Mrs. Banta is the wife of G. W. Banta, the well-known dealer in auto supplies, whose place of business is at No. 2676 S. Vermont Street. They have resided in Los Angeles for the past twelve years.

"For years I was concerned Mrs. Banta, 'I had been a sufferer from stomach trouble and about a year ago I felt so badly all the time that I just didn't care whether I lived or died. I simply lost interest in everything and I didn't want to be bothered by seeing anybody or going anywhere. I was in such awful pains in my stomach that I really had to use hot water bottles to get relief at all and suffered so in my arms and sides that I would almost cry out with the pain and my nerves were just shattered and I couldn't sit still. I was troubled both with heartburn and the stomach, too, and I couldn't eat solid food of any kind; in fact, nearly everything that I did eat would cause me pain and I didn't know what it was to have a good night's sleep and I had fearful headaches and my blood was thin and I had no color at all and my strength and energy were completely gone."

"I tried every sort of medicine that I heard of and had different treatments, but nothing did me the least good and I got so discouraged that I just gave up all hope of ever getting my health back again. About that time I took to taking Tanlac and the good it had done for others who were troubled like I was and my husband insisted on my taking it and so we bought a bottle and after using three bottles I began to feel a whole lot better. The pains in my stomach and my nerves had just shattered and I didn't want to be bothered by the stomach troubles coming on and my nerves improved and my appetite got so good while I kept on taking Tanlac that today I feel that I am a well woman again. Because of this apportionment, there never has existed the same double censorship of mails as applied to cables.

**PURE BLOOD**

The blood all the solid states take the best and cheapest. It affects the entire body. If you have any trouble, consult the experts. The people of Ireland think that Maj. Wood would arrive in his airplane from East Church to prepare for an attack on craters in Atlantic.

The weather tonight is the most dangerous weather conditions will continue for some time.

The drizzling rain turned during the afternoon to a soaking snowfall. Although both fliers are ready for the "hop off," it was learned tonight that plans for the flight of a large number of passengers planes and Harbor Grace are being made. Maj. Arthur Partridge, R.A.F., refers of the flights, and he had received no notification of the entry of the Handley Page and was not the one to whom its pilot would be.

LIMERICK (Ireland) April 15.—Heavy squalls of wind, rain and half hours of darkness delayed the departure of the people of Limerick that Maj. Wood would arrive in his airplane from East Church to prepare for an attack on craters in Atlantic.

# The People and Their Troubles

## Dorothy Dix Talks.

*The Status Quo Ante.*

BY DOROTHY DIX.

We are hearing a great deal about the status quo ante just now. The problem of the whole world is how to get things back to where they were before the war.

Germany is demanding to be received back into the fold of nations in the position she occupied before she ruthlessly invaded the earth in blood and tears. France is trying to rehabilitate her devastated fields and Belgium is attempting to call its scattered people home again.

England is demanding to be received back into the fold of nations in the position she occupied before the war, and the earth is big and tears. France is trying to rehabilitate her devastated fields and Belgium is attempting to call its scattered people home again.

Spain is demanding to be received back into the fold of nations in the position she occupied before the war, and the earth is big and tears. France is trying to rehabilitate her devastated fields and Belgium is attempting to call its scattered people home again.

Italy is demanding to be received back into the fold of nations in the position she occupied before the war, and the earth is big and tears. France is trying to rehabilitate her devastated fields and Belgium is attempting to call its scattered people home again.

The dust of the wrecked homes of the world still rise again in the same picturesque cottages. The millions of dead men will never rouse from their last sleep, nor will the broken hearts of millions of women ever cease to beat. Their all ever sing with joy again.

In no particular will the world go back to what it was before the war. They too have a new outlook on life. They are willing to work in themselves new possibilities, unsuspected aptitudes, undeveloped strength. Many of them for the first time found out what national independence means and the joy there is in doing constructive, worthwhile work, and that experience has been the teacher of thousands of women out of the clinging-vine class forever.

And what is true of the great world is equally true of the little world in which all of us live. We have our being. When things are changed, they are changed, and they can never be the same again no matter how much we long for it or however fervently we try to desire ourselves that they are. We can never go back to the status quo ante. Perhaps if we remembered that, we should feel more peacefully within our human relationships and guard more tenderly those who are dear and precious to us.

A woman once told me this story. She said that when she was very young, she married a handsome young chap who developed into a brute and a drunkard. For many years he mistreated her in every way wrapped around a person.

possible way, and himself descended. No woman can ever seem an answer lower until he reached out to a man who had once seen

her red of face and furious, brawling like a fish wife. No man is ever a little the god to a woman after she has brawled him with all self-control gone, stamping his foot in little rage. After these degrading spectacles the husband and wife kiss and make up, but the glamor of their romance has gone. Each finds the other cheap and the little rift has been made within the love that by and by will make love's music mute if they continue to quarrel.

Precisely the same thing may be said of friendship. Our friends are disloyal to us, or say bitter things to us or fail us. They seem to think that they can atone for their offense by saying they are sorry, and saying that they are old timers. Never was there a greater mistake. There will always be a greater mistake than their faithlessness. You can no more patch up a broken friendship without showing the discrediting place than you can mend a Sevres vase without showing the crack.

We can never undo what we have done. We can never go back to the status quo ante. Let that terrible thought make us careful of what we do.

### THE HELPING HAND.

"How far that little candle throws his light! So shines a good deed in a naughty world."

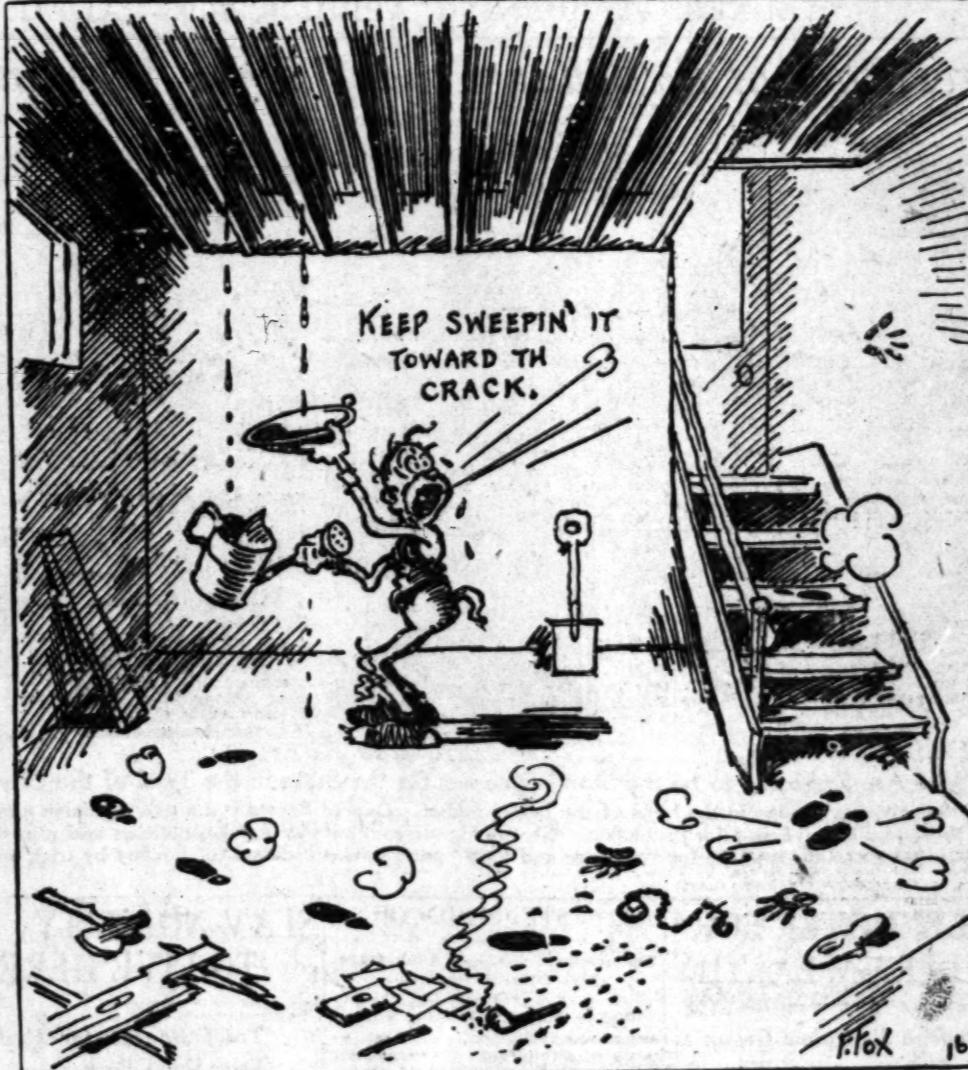

The Benevolent and Protective Order of Elks has contributed to the "gift fund" of the Federal Board for Vocational Education \$50,000 to assist in covering the cases of men who cannot legally receive either compensation or training at the expense of the government. The Elks have also placed in the disposal of the Federal board a further \$50,000 to be loaned to disabled soldiers, sailors and marines, the money to be promptly placed in training with proper maintenance while their compensation award is determined by the government.

The Chautauqua Bird and Tree Club of Chautauqua, N. Y., has not once placed itself in the public places of Chautauqua, hung bird houses in the trees and engaged a landscape architect to improve the grounds about the railroad entrance, thus making the going Bird and Tree Club in New York City, with the same officers as the Chautauqua Society, with John Burroughs as honorary president. The club is the foremost naturalists of the country as speakers at its monthly meetings in the New York Museum of Natural History.

A fund of \$2,000,000 has already been appropriated to pay the expenses of all disabled soldiers, sailors and marines to attend George Washington University. The government will also assist any dependents of the service man while he is being refitted for civilian usefulness.

This girl lost her pocketbook. She dropped it on the floor of the Lido Station lobby. When she missed it she returned and found it just about where it should have been, she thought. But when she opened it the \$46.17 it should have contained had dwindled to 17 cents and a

**EASY SOARING.**  
With airships we shall soar around the  
\$1000 mark the swain who murmurs,  
"Come fly with me," may be able to start  
soaring.

**NEEDS SCREENING.**  
Evelyn Nesbit Thaw's last picture has  
been pulled off the screen by the Detroit  
Police Commission. It was thought that  
Evelyn had had enough advertising of this  
sort to last her for a while, but you never  
can tell.

**BEFORE AND AFTER.**  
The United States Food Administration  
is now advising people to stock up on sugar.  
Also another branch of the administration  
has just secured the conviction of a man  
who thoughtfully stocked up the stuff in  
advance. All of which shows that this is  
a wonderful country.

**CANADA'S GRATITUDE.**  
They are right on some things in Can-  
ada. That country is paying its discharged  
soldiers a war service gratuity which  
amounts to \$100 a month for married men  
and \$70 a month for single men for six  
months after leaving the service. Peace  
came to Canada and the United States si-  
multaneously. Canada acted and we are  
wastefully behind. It is a contrast that is not  
to the credit of the United States. The  
small allowance given to American soldiers  
cannot compare with the Canadian figures.

**COMIC TRAGEDIES.**

When they get around to writing those  
gingerbread comic operas again the liberti-  
ties will find Bavaria a fertile source of  
inspiration. The people change their gov-  
ernment with their socks. Just now the  
President is a former horse doctor—or is  
it a piano tuner? The Commissioner of  
Education is a junk buyer who never learned  
to read and, according to the last dispatches,  
the Minister of Foreign Affairs has  
served two terms in the insane asylum.  
However, this is not a bad sort of a  
training for the conditions which now pre-  
vail in Central Europe.

**VERSAILLES MEMORIES.**  
It is announced that President Wilson  
will present the peace agreement to the  
Germans in Versailles, amid the remains  
of the grandeur of the court of Louis XIV.  
The many tragedies that lurked on the shades  
of the famous gardens will not be forgotten—with the stately walks, playing  
fountains, lovely colonnades, shady trees  
and dwarf shrubs, and the ghostly shadows  
of men in satins knee breeches and doublets  
with ruffs, and queenly women in shimmering  
silks and flowing draperies, high coiffures,  
delicately-tinted cheeks and patches  
playing at the game of love or gossiping  
over the escapades of the gay ruler. And  
the most far-reaching event of the world  
will be staged amid these historic scenes.

**PAYING THE PIPER.**  
The idea of a gradual increase in the  
rate of interest on the German war indem-  
nity bonds looks pretty good to the amateur  
financier. The plan suggested is that about  
ten billion dollars of the bonds shall be  
issued for a period of thirty years, beginning  
in 1921. The interest on the bonds shall  
be 5% per cent. at the outset, but advances  
to as high as 5 per cent. in 1928, by which  
time a sinking fund for their redemption  
must be established. This furnishes an in-  
centive for the German people to them-  
selves take up the bonds as rapidly as pos-  
sible. The Germans don't like the idea of  
paying interest to others than themselves  
and if this interest is advanced instead of  
being reduced the reasons for cleaning up  
the obligation or making it a family affair  
are more manifest.

**BEAUTY AND CLEANLINESS.**  
The royal wealth of Southern California  
was again demonstrated Saturday when  
the gallant soldiers of the "Fighting Seven"  
marched through serried ranks of enthusiastic  
welcomers over a carpet of bright  
blossoms. Thousands and tens of thou-  
sands of flowers were strewn in the path-  
way of the marching men. At some portions  
of the route the streets were literally cov-  
ered with blossoms.

Los Angeles looked good to those men  
from overseas. The joy in their hearts  
surged higher and the smiles on their faces  
grew brighter as they heard the acclaim  
and the heartfelt greeting of hundreds of  
thousands of their "home folks." And the  
occasion was brightened by the blue sky  
overhead and the bright flowers underfoot.  
For the men have not forgotten other times  
when their way led over blood-soaked, shell-  
torn fields in fierce attack.

Another feature of the big celebration  
which elicited favorable comment was the  
speed with which the street department  
cleaned up the litter which such a big  
crowd inevitably leaves behind. Only a  
few minutes elapsed after the parade was  
over before the streets and sidewalks were  
in order again.

**PEACE FACT DRAWS NEAR.**  
As the somber days of Lent draw to  
their end and the glorious feast of Easter  
approaches, the great news is flashed across  
the Atlantic that all the questions of the  
peace treaty are so near solution that the  
German plenipotentiaries will be invited to  
meet the representatives of the associated  
nations at Versailles on April 25. The an-  
nouncement comes, appropriately enough,  
through President Wilson; and thus the  
world learns with assurance, through the  
American spokesman, the date of dates,  
which has been expected so eagerly. When  
the Teutonic delegates are admitted the  
conference will become a congress and the  
representatives of the enemy powers will  
be allowed to express their views on the  
terms of the immediate future.

Rival cities of the Pacific Coast States  
have been wont to talk in terms of amuse-  
ment and even derision of the aspirations  
of the inland city of Los Angeles to reach  
out to salt water. They have witnessed,  
not without a barely concealed admiration,  
the tremendousfeat of this West Coast  
metropolis in creating a great artificial harbor  
from the mud flats of San Pedro and Wil-  
mingston, contenting themselves with poking  
at the Sheepshead Strip devised to link  
the city with its water front. The deal  
just concluded by the great merchant of  
Broadway and the plans with which he ex-  
pects to follow it up give Los Angeles the  
laugh on these other cities that have  
thought it could never get to tide water.

President Wilson's declaration shows that  
we may confidently look forward to an early  
signing of the peace. Paris cablegrams  
state that the German plenipotentiaries will  
be given ample opportunity to discuss the  
terms, but will not be permitted to unduly  
delay action. It has even been suggested  
that two weeks should be the limit for the  
sessions at Versailles. This, perhaps, is  
running the line a little too closely, but at  
any rate the historic document should be  
signed by the end of May.

If so, then this peace congress will have  
accomplished a tremendous task in record  
time. It had had a colossal work, the  
magnitude of which only comparatively few  
men can grasp. The majority of us have  
to be content with knowing only that it is  
a settlement greater than any which has  
gone before.

It is a great satisfaction to be able so  
confidently to look forward to an early con-  
summation of the undertaking of the  
representatives of the various governments  
gathered at Paris. The President's state-  
ment in backed by other indications of a  
quick finish. Premier Lloyd George has  
left for London and it is expected, will to-  
day inform the British House of Commons of  
the progress made. It is believed he will  
be able to say that all important questions  
are practically cleared up.

There has been a great deal of carping  
in some quarters about the negotiations.  
They have been called protracted, long-  
drawn-out, and the delegates have been de-  
nounced in some quarters as time-wasters  
and squabblers over academic propositions.  
The Hearst papers, in particular, have  
barked over months spent "in formulating  
a constitution of a League of Nations" and  
over "idle proclamations and still more idle  
creations of parchment alliances and parch-  
ment superstates."

This sort of criticism, if it can be dignified  
by such a word, is foolish in the extreme.  
In the opinion of The Times the  
conference has made consistent and admira-  
ble progress in its gigantic task now seem-  
ingly so near its conclusion.

After the armistice was signed men of  
great experience and knowledge warned the  
world that the negotiations for restoring  
peace would occur many months ahead, judg-  
ing from the Congress of 1815 which opened  
most of 1919. Some even went so far as  
to say that the negotiations might easily  
extend into 1920. Yet here we are, less  
than six months from armistice day, and  
we are looking forward, not without reason,  
in peace in a few weeks.

In considering the speed with which the  
Paris conference has worked one may re-  
call that four months elapsed between the  
time of the signing of the armistice be-  
tween the United States and Spain in 1898  
and the signing of the treaty. And the  
questions then disposed of were few and  
really only concerned two nations. Today  
there are fourteen nations at conference  
at Paris and when the congress of Ver-  
sailles is held Germany and its allies will  
be represented, raising the number to  
eighteen.

The nearest approach to any such con-  
ference as the present one was that held at  
Vienna in 1814-15. It lasted seven months  
and would have continued longer if Napoleon  
had not again threatened the peace of Europe.  
Even as it was, some of the ques-  
tions were postponed and were not settled  
until 1821. Moreover, the congress of Vienna  
failed to secure the stability of Europe.

Judging by the past, those who have con-  
demned the present Peace Conference as  
dictatory have no real justification for their  
criticism and will not be supported by the  
judgment of the people. The public will,

The Times believes, share its own view  
that the progress has been meritorious  
when due consideration is given to the vast  
problems encountered and the difficult ques-  
tions that call for solution.

Not the least of these has been the

amount of money which Germany must pay

for its criminal folly and its wanton de-  
struction. This question is sure to be the  
cause of argument at Versailles after the  
German plenipotentiaries are called in. Ad-  
visors from Paris say that Premier Lloyd  
George, alarmed at the result of the by-  
election at Hull, which went against his  
government, persuaded his colleagues on  
the council of four to revamp the financial  
plan so that Germany will be called upon  
to pay the full price of the war and the  
cost of pensions also.

It may be taken for granted that the Ger-  
man representatives at the peace table

will press for another revamp. But they

will undoubtedly be met with the precedents

they created in 1871. After the Franco-

Prussian War Germany made France pay

not only the cost of the war, but exacted a

sum of \$400,000,000 and the surrender of

Alsace-Lorraine. The Allies have com-  
misions to examine scientifically into the

question of how much the Germans can

pay and they are not likely to ask a sum

which will exceed the enemy's capabilities.

They want reparation, therefore, they will

not place Germany in a hole where she can-

not make it. Nor are they going to be

generous to her at the expense of countries

whose war losses are infinitely greater than

Germany's.

It would seem, however, that the "Big

Four have fully decided on the amount to

be required, because President Wilson spe-  
cifically says that the most complicated

questions now are solved and attention has

been directed to the matters directly af-  
fecting Italy. They will soon be disposed of,

unless The Times is greatly mistaken

and the President is making a wrong bet.

The Canadians have laid out a gold links

on Vimy Ridge. This sounds like a bit of

sacrifice, but the Canadians were among

the boys who took and held that ridge

against the red tide of war and nobody is

disposed to object to their having a little

game of golf there now.

### MOMENTOUS WOLFSKILL RANCH TRANSACTION.

Prominent among the epochal land trans-  
actions meeting the development and prog-  
ress of Los Angeles must be recorded the  
purchase by Arthur Letts on Monday of the  
Wolfskill ranch lying between Beverly  
Hills and Sawtelle. As a direct result  
of this monumental deal the decade-long  
dream of a suburban development stretch-  
ing from West Los Angeles and Hollywood  
to the sea becomes an assured realization  
of the immediate future.

Rival cities of the Pacific Coast States  
have been wont to talk in terms of amuse-  
ment and even derision of the aspirations  
of the inland city of Los Angeles to reach

### SYRACUSE TEN THOUSAND.

EXCLUSIVE DISPATCH.

SYRACUSE (N. Y.) April 15.—The announcement of the fifteenth renewal of the Empire State \$10,000 purse for 2:12 trotters at the Grand Circuit meeting, which will be held at Syracuse September 8 to 12, in connection with the New York State Fair, recalls the splendid contests which have been seen in this event since W. J. Andrews won the first one with Ethel's Pride in 1905. In that race Geers finished second with Turley, while he also won with Highball in 1907 and St. Friece in 1915, when he defeated Mabel Trask in 2:03%, the record for the race. Murphy has been more fortunate in the Empire State purse than any other driver, as he won it seven

early closing events on the Syracuse programme, the others being a 2:06 trot for \$2000, a 2:10 pace for \$3000, a 2:06 pace for \$2000, as well as a 2:18 trot and a 3:00 and 3:05 race each of which \$750 is added. Arrangements have also been made to trot the Matron Stake at Syracuse this year. Its value is estimated at \$7500.

### FISHING POOR

IN THE SIERRAS.

(SPECIAL CORRESPONDENCE)  
PORTERVILLE, April 15.—According to O. P. Brownlow, the district game warden, the fishing in the Sierras remains very poor for the time of year. The water is cold, high and muddy, and as a result the trout fail to rise to any kind of bait. Several fair catches have been reported, but the fish for the most part have been very small.

### LARGEST OFFER IN RING HISTORY.

"Buddy" Bishop, sporting editor of the Cincinnati Enquirer, tells at length in his paper of the offer of the Idaho sportspersons for the Willard-Dempsey match. Among other things he says:

"The offer of the Foothills sportspersons and business men is said to be the biggest cash document ever placed before a boxing promoter. It likewise represents the largest financial backing in the history of the glove sport. It is also unsurpassed by facilities from the entire country. The Idaho men are gamblers when it comes to doing big things. J. C. Bishop, president of the Foothills Athletic Club, is one of the wildest known men in the Northwest. Like Tex Rickard, he will take chances. If Idaho gets the big match it will draw big from Salt Lake, Butte, Spokane, Seattle, San Francisco, Portland and all the large cities out that way."

### BIG TRACK MEET SATURDAY

Southern California Event is to be Held.

Almost Two Hundred Performers are Entered.

Will Take Place on Oval of Los Angeles High.

Almost 200 high school track performers will be seen in action Saturday in the annual Southern California interscholastic championship track and field meet which will be held there. Chairman Seth Van Patten of the committee in charge of entries and catalogues the entrants who are the pick of the athletes of various schools.

All of the city schools and most of the outlying institutions of learning have entered teams. Girls from Pasadena, Valencia, Glendale, Beaumont and Citrus Union will meet the city's best performers in practically all of the events and several other schools have one, two and three-man entries.

### MANUAL ARTS TO MEET U.S.C.

TRACK EVENTS IS TO TAKE PLACE ON THE TOILERS' FIELD.

Sid Foster will send his Manual Arts track and field performers to the University of Southern California's field. The meet will furnish the rosters of both institutions with something to worry about. Manual Arts won last year by a margin of nine points, but Trojan prep school did not even to that score.

Foster has had his squad working for the past two days in spite of the vacation which the student body is on.

The U.S.C. lads are pinning their hopes in the spirits to H. Davis, the sprinter, who has been stepping over the century in close to even time.

**UTAH FIVE REACHES CITY.***Arrives in Los Angeles Early this Morning.**Will Take Part in Big Basketball Tourney.**Dancers to be a Special Feature of Event.*

In the wee, small hours of this morning, the University of Utah's championship basketball team arrived in this city for the national A.A.U. basketball tournament which will be held at the Los Angeles Athletic Club Thursday, Friday and Saturday evenings.

According to the original plans of the Salt Lake aggregation, the team was scheduled to arrive early yesterday afternoon and practice without a break until last evening. But time tables failed to live up to advance prophecies and the team disembarked some time after midnight instead.

Members of the Utah party are: Milton Romney, Orson Wright, Merlin Stevenson, Wilfred Romney, Clark Woodbury, Lyman Chipman, Max Swan, and Martin Hause, plus his son, the diminutive Coach T. N. Fitzpatrick. They will work out this morning on the L.A.A.C. court and may stage a light exhibition match this evening.

Opposite them, team of San Francisco is slated to arrive tomorrow morning on the L.A.C. The following players will represent the city in this tourney: L. P. Wing, George O'Brien, R. Rosen, J. C. Schwitzer, R. G. Kelly, H. J. Toss, J. M. Miller, N. Lauterwasser and they will be coached by Athletic Director Frank Foster.

Other teams which will compete for the national title are the U.S.C. Occidental College and the two L.A.A.C. quintettes. Drawings will be made tomorrow after the arrival of the western teams. The play will open Thursday evening.

A special feature of the three nights of the tournament will be the "baseball dance," which will follow the games. Admission will be \$1 per session, but this will include attendance at the dance. A stunt jazz band has been lined up by Director Kepnes and the fans will have every variety of entertainment offered each evening.

### WORLD-WIDE REVIEW.

OFFERINGS AT A NUMBER OF THE CITY'S THEATERS.

It took Jules Verne eighty days to go around the world, but why waste eighty days? "The World-Wide Review," at Pantages, takes you there and back again in much less than eighty minutes. Among others, they give songs and dances from Italy, Sweden, China, Ireland and Russia.

He is called the "Canary of Almost Human Intelligence," and his performance surely merits it. Also called the "Golden Bird," his twittering violin rendering of popular and classical airs, and his wonderful imitations of any bird call the audience may suggest, are proof enough that here we have a most wonderful artist.

Mariette Lake really is a harpist and offers an unusual programme of songs. The Dixie Four, a quartette of voices and other noises, blend fun with their music. Mrs. Marion Dalton have the only act on the bill without music. (Marion gives what he calls a selection from "Gentleman's Guide." But, as I said before, there isn't any guide in it.) Outside of that, their act is a big bunch of athletic surprises. "Jazz" Mack and Almee-Mack play four times each night. (When she gets a chance,) "The One Chance, an Episode of the Man of Might," complete the bill.

### "A Gentleman of Quality."

The Garrick Club week has as its stellar attraction the very latest production of handsome Earle Williams. "A Gentleman of Quality" is the title of this first-run photoplay now showing at the Garrick. Mr. Williams is the lead in it, but he is surrounded by a beautiful woman who is his wife, following his mental breakdown from a serious accident. Mr. Williams in this production shows him his dramatic power in depicting his struggle between love and honor before finally accepting the woman as his wife.

He struggles that he may be freed by the beauties until, and fear that to day the real husband will return to claim his own. Love finally tri-

umphs, however, and is revealed to be right, at the close.

### "The Two Brides."

Lina Cavalieri in "The Two Brides" will be seen for the last time today at the De Luxe. In her picture "The Two Brides," she has an admirable role. She is seen as Olga Marconi, beautiful daughter of an Italian sculptor and her father's model for a statue called "The Goddess." She has a rare unsurpassed for strength, interest and appeal. The situations are dramatic and the climaxes, excep-

tional.

### "Hearts of Men."

In "Hearts of Men" at Quinn's Palace, George Beban rises again to the supremacy of his wonderful gift of interpretation. His character, "Love," makes the whole world kin—and the love he portrays for his motherless little boy, though humorous, is convincing. Here is a plot that tugs at your heart strings. Beban wrote the story. The locations are cleverly chosen and the photography of the Brown horns that interests, and a weekly news-views from everywhere.

### "Mrs. Wiggs of the Cabbage Patch."

The feature of this week's programme at the Palace is the action version of the famous story "Mrs. Wiggs of the Cabbage Patch" with Marguerite Clark in the role of Mrs. Wiggs. Tom Mix's work is charming, and his supporting cast excellent, while the photography and settings are all that could be desired.

### "The Bear's Coat."

There isn't a great deal of variety this week at Clune's Auditorium, although the show is decidedly interesting. Prince Karini and Selma have by far the most interesting offering of stage novelties seen here in recent months. The bear's coat "érotiques" tricks of magic that are absolutely new. The same is true of the Chinese Heng Wa troupe, whose White has a witty country-boy offering that fairly sparkles at times.

### "The Chip of the Flying U."

The feature of this week's programme at the Palace is the action version of the famous story "Mrs. Wiggs of the Cabbage Patch" with Marguerite Clark in the role of Mrs. Wiggs. Tom Mix's work is charming, and his supporting cast excellent, while the photography and settings are all that could be desired.

### "The Stage Limit."

There isn't a great deal of variety this week at Clune's Auditorium, although the show is decidedly interesting. Prince Karini and Selma have by far the most interesting offering of stage novelties seen here in recent months. The bear's coat "érotiques" tricks of magic that are absolutely new. The same is true of the Chinese Heng Wa troupe, whose White has a witty country-boy offering that fairly sparkles at times.

### DAILY TRADE TALK.

**Oil Boom Grows; an Income-Tax Echo; Big Year for California Celery.**

BY CHAPIN HALL.

If the so-called wildcat territory now being proved up near Fullerton fulfills its promise, Southern California will become the greatest oil-producing section of the United States. There is no reason for any abatement of optimism over the probabilities of the field which started the oil world when the now famous Chapman gusher was brought in a few weeks ago. This well, miles from any other producer, was the first to be found by the use of a new eight-inch drill, pumping 2500 barrels a day. The oil is also very light, about 22 gravity. The well was also the first to be completed. The first three wells were brought in at the rate of three a week. The field now has over 300 wells producing, and the daily output is about 75,000 barrels.

Organizations and individuals are advised by the collector of internal revenue, John P. Carter, to understand May 15th on their calendar which is the last day for filing returns of information, giving the names and addresses of all individuals to whom payments of salaries, wages, rents, interest, dividends and other gains, profits and income of \$1000 or more were paid during the year 1918. All employers of labor are required to make a return, but the tax on the amount of the net earnings of the two hotels "California" and "the border" is estimated at \$75,000 per year.

New work is being rushed on both Union No. 2 and the Standard Kramer 2-1 and records are being made on the new wells, which are some of the largest ever brought into the local fields. An eighteen-inch bit, weighing 2100 pounds, will be the hard core of the new well.

Now there is a great demand for the largest tools ever used.

The Standard is going in for a record for its new well close to the Chapman. In six days the driller was off for the fourth divisional formation.

The Petroleum Development Company has located five wells; has one rig up and another on the ground. The oil will be sold to the market for both producers and refiners.

The Heffron Oil Company, which began drilling in a sand wash and was heartily laughed at by some wiseacres, has ceased to be a laughing stock. The average yield of celery in the fields runs from 1100 feet in hard conglomerate there were unmistakable signs of oil. Gas pockets and first oil showings are appearing in the virgin field and have hardly ever offered as many encouraging signs of developing into a producing section, and the new wells is being eagerly awaited.

California is a place of repeated surprises even to persons who think they know the general trend of the market. The fertility of the commonwealth, Celery, for instance. How many realize that California raises more celery than any other state in the union? The market is changing, too, from a small town to a great extent. The Chapman gusher was brought in at a high speed. At the present rate the well will be turned into a large-scale production in four months, for there seems little doubt that the same oil formation is the same as the Chapman.

## Your Teeth Are Worth One Question, Surely

Teeth are vital enough to anyone to warrant asking a dentist or a doctor one question:

Ask if a thoroughly clean tooth will decay. You might add, "Is it safe to desire more than cleanliness from a dentifrice?"

The maze of claims from dentifrices is truly bewildering. But there is a way out—just inquire of your dentist or doctor.

They will tell you that all a dentifrice can safely do is to clean the teeth. And that Dr. Lyon's does that necessary work thoroughly and safely, just as it has been doing for over 50 years.

There is no danger of using the wrong drug—it contains no drug. But it has been cleaning, polishing and preserving the teeth of refined people for three generations.

## DIVORCE PRINCIPALS IN FIGHT OVER AUTO.

## EX-WIFE ALLEGES HUSBAND IMPROPERLY TRANSFERRED IT TO CO-RESPONDENT.

The domestic tragedy in the life of Harry V. Gentry, a contractor, and Lucy C. Gentry, which resulted in Mrs. Gentry naming Mrs. Myrtle Tenant as the woman who broke up her home and obtaining a divorce April 28, 1918, had an echo in Judge Myers' court yesterday when Mrs. Tenant became the plaintiff and Mr. Gentry the defendant. The action, which was also against Sheriff Cline, was for the recovery of an automobile seized on a writ of execution by the Sheriff.

Mrs. Tenant declared that while Mr. Gentry had paid a portion of the price of the car, she had paid the balance, and she offered in evidence bill of sale to prove it to herself. She admitted that Mr. Gentry is a boarder at her home, 4313½ South Olive street, paying her \$50 a month.

Mrs. Gentry claims that Mr. Gentry transferred the automobile to Mrs. Tenant for the purpose of defrauding her of her rights in the machine. She also claimed that she had been compelled to give up to be known as the wife of Mr. Gentry. This Mrs. Tenant denied. After Attorneys Musgrave and Nawmier had addressed the jury, the court adjourned until this morning.

MARY PICKFORD AND NAZIMOVA LEADERS.

Running second to Mary Pickford in popularity in the contest now being conducted by the American Committee for Devastated France at 661 South Spring street, is Nazimova, who defeated the two others yesterday brought Kathleen Clifford up to third place. The competition last night was as follows: Mary Pickford, 11,260; Nazimova, 14,860; Kathleen Clifford, 10,930; Margaret Weston, 7,674; Clark Kimball Young, 7,020; Mary Miles Minter, 6,650; Norma Talmadge, 5,449; Marguerite Clark, 4,670; Mae Marsh, 3,980; Pauline Starke, 1,710; Billie Dove, 1,000; Douglas Fairbanks, 2,170; Charlie Ray, 3,460; Alice Joyce, 1,000; Charles Chaplin, 1,170; Mabel Normand, 1,850.

SEEK APPROPRIATION FOR PACIFIC COLONY.

PSYCHOPATHIC ASSOCIATION WIRE LEGISLATURE ASKING SUPPORT.

Tickets were sent yesterday by the Psychopathic Association of California to the Senate and Assembly at Sacramento asking that they pass a bill now before the Legislature calling for the appropriation of \$150,000 for the maintenance of the Pacific Colony for the feeble-minded which is to be established near Pomona, as a result of action taken at the postponed annual meeting of the association Monday evening at the home of Mr. and Mrs. W. S. James, 521 Spring street.

Superintendent of charities Martin told the seventy-three members and guests present that there is now but one psychopathic colony hospital, for the first time, a neural medical ward. Mrs. O. F. Clark told of the non-profit work being done at Rest Haven for the care of nervous women in moderate circumstances. Judge

Lient. W. L. Spelman of the harbor district was promoted to a captaincy and Lient. James McDowell, head of the traffic squad, was also promoted to the rank of captain.

The commission recommended that the Commission fix age limit for chauffeurs—for public automobiles and taxicabs from 18 to 21 years.

It was argued that giving opportunity for a man only 18 years to drive a bus would be detrimental to his best interests morally and that it operates to keep him from learning some useful trade or profession.

## VICTORY DRIVE PLANS OUTLINED

Thousand Women Attend First Get-Together Meeting.

Necessity of Exceeding Quota is Urged by Speakers.

Men Who Saw Service Asked to Aid Loan Workers.

With more than 1000 workers in attendance, the Woman's Victory Loan Committee launched its drive, yesterday, with a meeting in the Majestic Theater. It was the first business and general information conference of the big organization, and the presence of scores of prominent workers was feature. Mrs. J. T. Anderson, chairman for the city of Los Angeles, presided at the meeting and introduced the speakers.

The first speaker was Henry S. McKee, chairman of the Liberty Loan State Central Committee for Southern California, who outlined the duty of the people to meet the obligation of the citizens in making a pronounced success of the Victory Loan campaign.

J. H. Coulson, Los Angeles county chairman, who had been months in Red Cross work over there, told some of his experiences and predicted that the women would be sure to put over the loan victoriously.

RESPONSIBILITY IS OURS.

R. E. Blizard, director of the central committee, gave encouraging words of advice, emphasizing the personal responsibility of the public in making good the promise of the United States to meet fully its obligation with no hint of repudiation. He was followed by Stanley Lord, who told what is to be done in the use of the several big banks which will visit the public gathering.

Leslie R. Henry, representative of the Federal Reserve Bank system, gave an address on the duty and obligation of the people as applied to the Victory Loan drive.

Mrs. E. R. Brainerd, State chairman of the National Woman's Liberty Loan Committee, who was greeted by much applause, predicted the triumph of the campaign, with more than \$50,000 women in the campaign, and declared that America will pay to the last cent every dollar of its obligation.

After the meeting, Mrs. Florence Collins Partner, Mrs. Carlos P. Hardy, Mrs. O. P. Clark and Mrs. Carrie Jacobs-Bond, were the other women speakers. Harold Proctor, tenor, gave a number of vocal selections on the war and the loan drive.

HAVE THE MONEY.

Charles F. Stern, superintendent of the State Banking Department, declared that the United States is abundant in able financial resources and otherwise to meet every dollar of its obligation, and would in no wise put itself in the attitude of the Hunks, that of threatened repudiation.

Mr. H. Montague, Los Angeles campaign manager, directed his remarks to the workers at the conference, going into details of the big drive which will start Monday, April 22, to continue until the night of May 2.

Mr. Montague, in charge of the same duties during the other loan drives, is personally familiar with all features of efficiency both among the women and the men.

Local leaders of the film industry are called by D. W. Griffith to meet at the Alexandria at 8:30 o'clock this evening to discuss what to be taken by them in the coming drive.

Mr. Griffith is chairman of the Motion-Picture Studios Committee and will have charge of all efforts to help the campaign throughout the Twelfth Federal Reserve District.

The picture people will have charge of most of the entertainment features of the drive.

They will have charge of the miniature transport Victory in Pershing Square, which will record the progress of the loan by its progress from "Broadway" on the other side of a mimic ocean.

Twenty-one meetings will be held there, the first next Monday evening. The tank Liberty, under fire supervision, will hold thirty-six meetings in and around Los Angeles.
